

Beyond Treble Bob on Handbells

07: The Toolkit

Beyond Treble Bob on Handbells

Core skills:

- Track the treble
- For any one method, learn to associate the places made with the relevant section (as defined by work of the treble).
- Interpret the impact of places made on starting positions and work out next starting positions
- Perceive all of the bells in all of the rows such that the desired placement of bells can be achieved
- Learn the overall, course level shape of the method to give high level context and confidence
- Learn the place bell sequences to give lead by lead assurance
- Learn staging posts to enable momentary rests

Optional extras

- Learn how the coursing order relates to the work of your pair
- Learn where coursing order is preserved and where it is broken apart
- Learn the dodge together and cross-over points for each pair

And

- Just ring a lot, 1,000 courses is not too many
